Select the color and accessories

You can select the plate's colors and accessories according to your room interior or purpose of use.

Select the plate's colors. ROMA has 23 kinds of plates in which inner frames are set.

Plate Color

* Please see page 7 for plate colors.

Select the accessories. ROMA's accessories also come in a wide variety, so you can match them to your application.

* Please see page 5 for accessories.

Newly fallen snowy white

ROMA

Selectable Accessories

1 3 kinds of modules

You can integrate up to 3 accessories into the module. The system gives you the best combination of accessories.

2 Cat 6-capable socket

CAT6 cable is faster and less noisy than CAT5 cable. Smart TV or videos from internet distribution play smoothly.

If you choose CAT6 for the future, you don't need to change it when the internet is upgraded.

3 Safe for children

With German socket installed-the contact terminals (Live parts) are isolated from the user's reach. Hence safe from any chances off electric shock.

You can mount the module at a lower position that child can reach.

Exclusive Range of Color Plates...
